E-ZI MINI FEATURES

KEYLESS IGNITION & BUILT-IN ALARM

The only time you need the keys is to either engage the steering lock or access the battery compartment, otherwise, the ignition system is keyless. The E-Zi Mini also comes with a built-in alarm system that is remotely operated by the key fob and once activated not only sounds an alarm but also locks the rear wheel to deter thieves

HYDRAULIC FRONT DISC BRAKE & DRUM REAR

180mm single disc brake on the front and a 125mm drum brake on the rear wheels provide secure and progressive braking on such a lightweight machine that has a kerb weight of only 56kgs.

LED LIGHTING

LED lighting all-round gives a clean modern look but also help to conserve power giving you the best range possible. It is also highly visible to other road users in all conditions, day or night.

POWERFUL LITHIUM BATTERY

48v 20AH lithium battery provides a range of 45kms on a single charge with a restricted top speed of 45kph (29Mph) to meet UK 50cc licence requirements.

CHARGING OPTIONS

The battery can either be removed from the battery tray in the machine and charged separately or you can plug in directly to the E-Zi making changing easy and meets the needs of various customers. A full charge takes only 7 hours.

TELESCOPIC FRONT FORKS

The RWU 26mm diameter telescopic front forks give a smooth ride, great handling and can absorb even the worst road surfaces.

TWIN REAR SHOCK ABSORBERS

Supporting the front telescopic front forks the E-Zi mini has twin rear shocks which give a controlled and comfy ride.

DIGITAL LCD DASH

The digital LCD dash is clear and very easy to read to give you all the information you need while riding. Displaying speed, battery charge levels, and power mode.

OPTIONAL FRONT BASKET

The optional front basket can be fitted giving more storage space

OPTIONAL TOP BOX

Optional top box can be fitted instead of the rear pillion seat pad to give extra secure storage space.
